Protocol Link Sponsors BioForward Breakfast Meeting

VERNON HILLS, IL – (June 3, 2009) Protocol Link, Inc., a leading project management and consulting firm to the FDA-regulated life sciences industry, today announced that it will sponsor the June 10, 2009 BioForward Madison Breakfast Meeting, which is slated to start at 7:30 a.m. for networking and 8:00-9:00 a.m. for presentation and discussion at the MGE Innovation Center, 510 Charmany Drive, Room 50, University Research Park, in Madison, Wisconsin. BioForward is a member-driven biotechnology trade association charged with building networks, supporting innovation, and creating the future of biotechnology.

Neelone Cestkowski, Executive Director of Wisconsin Operations at Protocol Link is a featured speaker at the upcoming BioForward Madison Breakfast Meeting and will present on the topic “Process Done Right.” This informative presentation will be dynamic and interactive, while guiding participants through the important role process plays in project and business success.

“At Protocol Link our team focuses on getting process done right the first time, ever time, for every client,” said Steven Weltler, President of Protocol Link. “The BioForward breakfast meeting affords us the opportunity to reach out to professionals in the industries that we serve and share our innovative approach to making process relevant and key to their overall success,” added Mr. Weltler.

About Protocol Link
